

At Carnegie Technologies we bring together the best and the brightest to challenge the status quo and develop real, revenue-generating communications products that take advantage of the fundamental shifts in the communications technology ecosystem. Founded in 2010 following a successful 20-year history operating wireless networks and developing adjunct communications products, Carnegie Technologies is a communications company with industry experience and engineering teams on four continents. We have deep expertise in software development for mobile devices and cellular core network operations, that we now leverage to drive the development of the next generation of communications technology such as connectivity expansion to remote areas, network performance enhancements, and the world's only comprehensive out-of-the-box IoT solution.

Carnegie is a rapidly growing company driven to make new and exciting technology. We offer competitive pay, great benefits and a place to grow along with our quality products. We operate in a fast-pace but casual and collaborative work environment.

Our office in Belgrade is seeking to hire an UX/UI Designer. If you want to join our team of enthusiasts of all professional backgrounds we would gladly welcome you on board!

Senior UX/UI Designer

Carnegie Technologies is looking for an experienced UX/UI designer.

As an UX/UI designer, you will be working alongside business and our development teams, on our own projects.

You will be participating in brainstorming, evaluation, concept development and application of design ideas. We expect of you to have an excellent eye for design, with a high interest in UI design, human-computer interaction and behavior, and user experience.
