

At Carnegie Technologies we bring together the best and the brightest to challenge the status quo and develop real, revenue-generating communications products that take advantage of the fundamental shifts in the communications technology ecosystem. Founded in 2010 following a successful 20-year history operating wireless networks and developing adjunct communications products, Carnegie Technologies is a communications company with industry experience and engineering teams on two continents. We have deep expertise in software development for mobile devices and cellular core network operations, that we now leverage to drive the development of the next generation of communications technology such as connectivity expansion to remote areas, network performance enhancements, and the world's only comprehensive out-of-the-box IoT solution.

Carnegie is a rapidly growing company driven to make new and exciting technology. We offer competitive pay, great benefits and a place to grow along with our quality products. We operate in a fast-pace but casual and collaborative work environment.

Our office in Belgrade is seeking to hire a HTML/CSS developer. If you want to join our team of enthusiasts of all professional backgrounds, we would gladly welcome you on board!

HTML/CSS Developer

Carnegie Technologies is looking for an experienced HTML/CSS Developer.

As a developer for Carnegie Technologies, you'll be joining a group of people who are passionate about modern front-end solutions. You'll help create and build beautiful and responsive designs, which will, in result, make the product highly operative and desired for use. You'll get to work using the latest frameworks with a tight knit team of talented individuals.

These are some of the things we assume you have used throughout your personal endeavors and are good at:

Front-end, primarily: HTML and CSS

Tools: Microsoft Visual Studio, Microsoft Visual Code, SVN, GIT, JIRA or equivalent

- ◇ 3+ year(s) of experience with responsibilities as defined in this advertisement
- ◇ Strong technical English
- ◇ Good communication skills with a both technical and non-technical audience

RESPONSIBILITIES AND EXPECTATIONS

- ◇ Design and develop user-oriented functionalities
- ◇ Translate user requirements into a working HTML/CSS solutions
- ◇ Deliver the solution and make sure it works and keeps working
- ◇ Code the entire HTML site from end to end
- ◇ Debug HTML/CSS problems

WOULD BE TAKEN AS ADVANTAGE

- ◇ Experience with JavaScript, Angular and Bootstrap
- ◇ Experience with UX/UI design tools (e.g. Adobe products, Figma etc.)
- ◇ Experience with responsive UI
- ◇ Experience with PWAs

WHAT WE OFFER

- ◇ Supportive QA and DevOps teams
- ◇ Competitive salaries
- ◇ Flexible working hours
- ◇ Private Health Insurance/Pension funding
- ◇ Sports activities once a week
- ◇ FitPass program for individual recreation
- ◇ Possibility for professional growth
- ◇ Remote work from home

We are located in the city center near the fast growing and changing area of Savamala District.
